 - Garage directly in the house (partially)

LOCATION:

- The TILIA Living Resort borders directly onto the Bäkewiese nature reserve of more than 50,000 m², directly by the Griebnitzsee lake – untouched and unobstructed nature.
- Thanks to good transport connections with the S-Bahn (urban rail) and by car, it is possible to reach the city centre around the Kurfürstendamm, in West Berlin, in only 25 minutes. Potsdam's centre is only 15 minutes away.
- The nearby surroundings of the Griebnitzsee lake include a UNESCO world cultural heritage site offering numerous castles, parks and attractive places for relaxation and regeneration in nature.

BUILDING MATERIALS:

- All houses combine carefully selected building materials such as natural stone, clinker, and various woods which are individually adapted to suit the respective site and light conditions.
- Sustainability in the handling of nature and a high standard of design, comfort and quality of life are responsibly united with the careful selection of building materials and the use of renewable energy sources.

WOHNEN:

- Villas and houses can be flexibly planned
- Option of individually designed tree house
- Modern and high quality interiors
- Individual design possibilities for bathrooms
- Lighting and design with glazed atrium, light bands and partly glazed stairwells/galleries
- Generous glazing with high quality windows, mainly of room height
- Garages/parking spaces
- Timeless, weightless architecture
- Personal safety with burglar resistant doors and window glazing

SITE:

- Extensive park grounds with well established tree stock
- Landscaped water areas
- Landscaped private gardens/land

ENVIRONMENT:

- Heat generation with geothermal energy (partly as option)
- Extensive rooftop greenery
- Well system for watering green areas (optional)
- Materials and substances do not contain any harmful substances – proven by quality seal
- Use of renewable and recyclable materials such as natural stone, wood and mineral substances
- High quality building insulation
